

[illegible]

The screenshot displays the main screen of the "MyCrochet" application. At the top, there's a header bar with the title "MyCrochet". Below it is a search bar labeled "Search" followed by filters for "in All" and a green "Go >" button. The central section is titled "Trendy Projects" and lists two identical project entries. Each entry features a square thumbnail with a white arrow pointing up and to the right on a black background. To the right of each thumbnail are details: a person icon for "Creator", a flag icon for "Type", a wrench icon for "Description bla bla blablablablablablab labla b", a star icon for "Hard", and a circular arrow icon for "10 hrs". A three-dot menu icon is visible at the bottom right of each project card. At the very bottom, there are three red navigation buttons labeled "Knits", "Projects", and "Counter".
